

2020 New Knight Experience: Freshman

Student Registers for Orientation

In order to cover the important Orientation content, students are expected to be available, virtually, for their scheduled Orientation date/program. The exact start time will depend on your Academic College/Major.

FTIC Orientation Webcourse

Includes University resource information and Academic Advising information. Many Colleges will enroll you in their specific College/Major advising content 10-days out from your Orientation. All Orientation content must be completed at least 24-hours prior to your registered Orientation date.

Prior to our Orientation date:

Make sure you submitted your Health Immunization Forms, set-up your Knightsmail account, and completed the required Webcourse.

On day-of Orientation, you will complete advising and schedule planning

The process and access to day-of content will vary by your Academic College. If you do not have guidance from your Academic College at least 24-hours in advance, contact fye@ucf.edu.

On day-of Orientation you will enroll in your classes

Your Academic College will provide you access to registration support as you enroll for classes.

Revisit your FTIC Orientation Webcourse Often

Review additional information and resources as you prepare for your first semester.
