

2020 New Knight Experience: Transfer

Student Registers for Orientation

In order to cover the important Orientation content, students are expected to be available, virtually, for their scheduled Orientation date/program. The exact start time will depend on your Academic College/Major.

Complete your Transfer Orientation Webcourses at least 24-hours prior to your registered Orientation date

(1.) Transfer Virtual Orientation Webcourse with University content

(2.) Transfer Advising Webcourse: Many Colleges will enroll you in their specific College/Major advising content 10-days out from your Orientation.

Prior to our Orientation date:

Make sure you submitted your Health Immunization Forms, set-up your Knightsmail account, and completed the required Webcourses

On day-of Orientation, you will complete advising and schedule planning

The process and access to day-of content will vary by your Academic College. If you do not have guidance from your Academic College at least 24-hours in advance, contact fye@ucf.edu.

On day-of Orientation you will enroll in your classes

Academic College will provide you access to registration support as you enroll for classes.
